Thane, Maharashtra, India – 400601

SKILLS & COMPETENCIES

Business & Analytical: Financial Accounting, Data Analysis, Process Optimization, Operations Management, Risk Assessment, Compliance, Feasibility Studies
Tools & Technologies: MS Excel (Advanced), Power BI, Python, MATLAB, AutoCAD, Aspen HYSYS, SQL

EDUCATION

Indian Institute of Management (IIM), Mumbai Mumbai, India
Master of Business Administration (MBA) Jun 2026 – Present

Institute of Chemical Technology (ICT), Mumbai Mumbai, India
Bachelor of Technology (B.Tech.) – Chemical Engineering | CGPA: 6.60/10.00 2021 – 2025

- Acquired strong analytical and quantitative foundations through rigorous coursework in systems optimization, process modeling, and advanced mathematical concepts.
- Secured an aggregate of 85.67% in Higher Secondary Certificate and 85.20% in Secondary School Certificate examination.

EXPERIENCE

Tax & Audit Assistant Jun 2025 – May 2026
Office of Santosh S. Bakshetti (Tax Consultant & Auditor) Thane, Maharashtra, India

- Assisted in auditing cooperative housing societies, verifying accounting entries and performing ledger scrutiny to identify documentation inconsistencies under strict confidentiality.
- Maintained accounts and recorded bookkeeping transactions for a manufacturing company, supporting reconciliation activities and organizing vital financial documentation systematically.
- Prepared tax filing inputs and collected financial data for individuals, verifying information accuracy to support timely income tax compliance.

In-Plant Trainee – Process Engineering Jun 2024 – Aug 2024
Epigral Ltd. (Formerly Meghmani Finechem) Dahej, Gujarat, India

- Analyzed operational data to perform root cause analysis on catalyst deactivation, establishing a predictive monitoring framework for enhanced lifecycle management.
- Investigated recurring burner failures through process safety management protocols, proposing structured corrective actions to minimize operational downtime and safety risks.
- Conducted a systematic moisture reduction study in purification systems, identifying critical operational bottlenecks to optimize process efficiency and product quality.
- Monitored continuous chemical manufacturing operations via distributed control systems, managing real time process parameters to maintain stability and safety compliance.
- Trained in hazard and operability studies, permit systems, and change management documentation to ensure rigorous compliance with industrial safety protocols.

PROJECTS

Plant Design – Ambrettolide Manufacturing (25 TPA) | Capstone Sep 2024 – Apr 2025

- Designed an end to end chemical manufacturing facility, evaluating three distinct synthesis pathways through rigorous techno economic and process safety analyses.
- Performed detailed material and energy balance computations, executing quantitative equipment sizing for reactor, separation, and heat transfer systems.
- Developed process flow diagrams and piping layouts, conducting a hazard and operability study that identified fifteen operational deviation scenarios.
- Prepared comprehensive capital and operational expenditure estimates, conducting return on investment analysis and site layout planning for the facility.

Impact of Climate Change on Water Quality | Seminar Nov 2024 – Jan 2025

- Analyzed the environmental impact of climate change on water resources, benchmarking system changes against national pollution control board standards.
- Evaluated advanced water purification methodologies, conducting scalability and feasibility assessments for municipal and industrial scale applications.

LEADERSHIP & ACHIEVEMENTS

- Earned industrial certifications in environmental pollution management, petroleum refinery engineering, and industrial internet of things, ranking top five percent nationwide.
- Led creative initiatives for Bombay Technologist, managing editorial content and coordinating design operations as Creative Head for the official technical magazine.
- Secured second place in the entrepreneurship blueprint business plan competition, presenting a structured market feasibility study and financial projection model.
