Thane, Maharashtra, India – 400601

SKILLS & COMPETENCIES

Business & Strategy: Financial Modeling, Corporate Compliance, Process Optimization, Supply Chain Analytics, Digital Marketing, App Distribution Strategy

Technical Arsenal: Advanced MS Excel, Power BI, Python, SQL, Cloud Infrastructure (GKE, Kubernetes), Advanced Analytics (XGBoost, cuML), AutoCAD

EDUCATION

Indian Institute of Management (IIM), Mumbai Mumbai, India
Master of Business Administration (MBA) Jun 2026 – Present

Institute of Chemical Technology (ICT), Mumbai Mumbai, India
Bachelor of Technology (B.Tech.) – Chemical Engineering | CGPA: 6.60/10.00 2021 – 2025

- Completed coursework in systems optimization, numerical modeling, and industrial management to build robust analytical and quantitative foundation.
- Secured 85.67% in Higher Secondary Certificate and 85.20% in Secondary School Certificate examinations.

EXPERIENCE

Tax & Audit Assistant Jun 2025 – May 2026
Office of Santosh S. Bakshetti (Tax Consultant & Auditor) Thane, Maharashtra, India

- Spearheaded statutory audits and ledger scrutiny for [Number]+ cooperative housing societies; identified reconciliation discrepancies and ensured 100% adherence to regulatory reporting standards.
- Directed end-to-end bookkeeping and accounts reconciliation for a manufacturing firm generating INR [X] Cr in annual revenue, reducing audit preparation time by [X]%.
- Managed income tax documentation and filing workflows for [Number]+ HNI clients, streamlining data collection protocols to eliminate late-filing compliance risks.

In-Plant Trainee – Process Engineering Jun 2024 – Aug 2024
Epigral Ltd. (Formerly Meghmani Finechem) Dahej, Gujarat, India

- Executed root cause analysis on plant operational data to resolve catalyst deactivation; engineered a predictive monitoring framework that improved asset lifecycle efficiency by [X]%.
- Investigated critical burner failures utilizing Process Safety Management (PSM) protocols; implemented corrective strategies that reduced potential downtime by [X]%.
- Conducted a systematic moisture reduction study in purification units; eliminated process bottlenecks to optimize output quality and increase production efficiency by [X]%.

PROJECTS

Plant Design – Ambrettolide Manufacturing (25 TPA) | Capstone Sep 2024 – Apr 2025

- Developed comprehensive CAPEX/OPEX models and ROI analyses to evaluate the techno-economic feasibility of a 25 TPA manufacturing facility.
- Evaluated three distinct synthesis pathways; optimized equipment capacity and executed material resource planning to maximize operational output.
- Formulated process flow designs and led a hazard and operability (HAZOP) study; successfully mitigated 15 critical operational risk scenarios.

Impact of Climate Change on Water Quality | Seminar Nov 2024 – Jan 2025

- Analyzed climate change impacts on water systems; benchmarked quality parameters against national pollution control board regulations.
- Evaluated advanced purification technologies; conducted scalability and economic feasibility assessments for industrial-scale deployment.

LEADERSHIP & ACHIEVEMENTS

- Secured 2nd Place in a national business plan competition among [Number] + teams; architected a comprehensive market feasibility study and financial projection model for a proposed B2C venture.
- Ranked in the top 5% nationwide for industrial certifications, encompassing environmental management, refining operations, and Industrial IoT.
- Led cross-functional teams as Creative Head for *Bombay Technologist*; streamlined editorial strategy and design operations to successfully publish the official technical magazine on schedule.
