## EDUCATION

### Institute of Chemical Technology, Mumbai

Mumbai, India

*Bachelor of Chemical Engineering*

2021 – 2025

- CGPA: 6.6 | HSC: 85.67% | SSC: 85.20%

## EXPERIENCE

### In Plant Trainee

Jun 2024 – Aug 2024

*Epigral Ltd.*

Gujarat, India

- Analyzed catalyst selectivity & deactivation issues in Hydrogen Peroxide unit
- Investigated burner failures in HCl synthesis units
- Performed a moisture-reduction study in Epichlorohydrin purification
- Gained hands-on exposure to continuous plant operations via DCS
- Completed industrial safety & MOC exposure

## PROJECTS

### Plant Design – Ambrettolide (25 TPA) | *Final Year Project*

Sep 2024 – Apr 2025

- Designed a complete chemical manufacturing plant for 25 TPA Ambrettolide (macrocyclic musk)
- Evaluated multiple synthesis routes and selected the process based on technical feasibility and economics
- Performed material and energy balances and designed major equipment with sizing calculations
- Developed process flow diagrams (PFD), P&ID, and conducted HAZOP and safety analysis
- Prepared site and plant layout, effluent treatment scheme, project cost estimation, and financial analysis

### Impact of Climate Change on Water Quality | *Seminar*

Nov 2024 – Jan 2025

- Prepared a technical seminar on Impact of Climate Change on Water Quality and Evolution of Treatment Strategies
- Studied physical, chemical, and biological water quality parameters and CPCB standards
- Analysed impacts of climate change on surface water, groundwater, and coastal water systems
- Reviewed conventional and advanced water treatment technologies, including membranes, AOPs, and biological treatment

## CERTIFICATIONS

### Petroleum Refinery Engineering | *Indian Institute of Chemical Engineers*

Feb 2022 – Apr 2022

- Completed a certification program covering refinery processes, operations, and industry practices

### Industrial Environmental Pollution Management | *Terra-Green Technologies Pvt. Ltd.*

Jun 2022 – Jul 2022

- Certification focused on pollution control techniques, environmental regulations, and sustainable industrial practices

### Industrial Internet of Things (IIoT) | *NPTEL*

2023

- Secured Top 5% rank in the course

## LEADERSHIP & ACHIEVEMENTS

### Creative Head | *Bombay Technologist, ICT Mumbai*

Sep 2023 – Feb 2024

- Led creative initiatives and content strategy for the Bombay Technologist publication

### Achievements

- Top 5% in NPTEL Industrial Internet of Things Course
- 2nd Position in The Entrepreneur's Blueprint conducted by Vortex 2022

## TECHNICAL SKILLS

**Engineering:** Process Simulation, HAZOP, PFD/P&ID, Equipment Sizing, Mass & Energy Balances

**Software:** MATLAB, Python, MS Excel, MS Office, Power BI

**Languages:** English, Hindi, Marathi
