Thane, Maharashtra, India – 400601

SKILLS & COMPETENCIES

Business & Analytics: Financial Accounting, Data Analysis, Process Optimization, Operations Management, Risk Assessment, Corporate Compliance

Tools & Systems: MS Excel (Advanced), Power BI, Python, SQL, MATLAB, AutoCAD, Aspen HYSYS

EDUCATION

Indian Institute of Management (IIM), Mumbai Mumbai, India
Master of Business Administration (MBA) Jun 2026 – Present

Institute of Chemical Technology (ICT), Mumbai Mumbai, India
Bachelor of Technology (B.Tech.) – Chemical Engineering | CGPA: 6.60/10.00 2021 – 2025

- Completed coursework in systems optimization, numerical modeling, and industrial management to build robust analytical and quantitative foundation.
- Secured 85.67% in Higher Secondary Certificate and 85.20% in Secondary School Certificate examinations.

EXPERIENCE

Tax & Audit Assistant Jun 2025 – May 2026
Office of Santosh S. Bakshetti (Tax Consultant & Auditor) Thane, Maharashtra, India

- Audited financial statements and executed ledger scrutiny for cooperative housing societies, verifying compliance with regulatory reporting standards.
- Managed bookkeeping and monthly accounts reconciliation for a manufacturing firm, streamlining audit-readiness and financial documentation accuracy.
- Compiled income tax documentation and prepared filing inputs for individual clients, ensuring adherence to regulatory compliance timelines.

In-Plant Trainee – Process Engineering Jun 2024 – Aug 2024
Epigral Ltd. (Formerly Meghmani Finechem) Dahej, Gujarat, India

- Analyzed plant operational data via root cause analysis of catalyst deactivation; established a predictive monitoring framework to optimize asset lifecycle management.
- Investigated burner failures using process safety management (PSM) protocols; proposed corrective actions to mitigate operational downtime and hazard risks.
- Conducted systematic moisture reduction study in purification units; identified process bottlenecks to optimize output quality and production efficiency.
- Managed real-time process parameters via distributed control systems (DCS); maintained system stability and compliance with safety protocols.
- Audited hazard and operability (HAZOP) studies, work permit logs, and change management files to verify compliance with industrial safety standards.

PROJECTS

Plant Design – Ambrettolide Manufacturing (25 TPA) | Capstone Sep 2024 – Apr 2025

- Designed end-to-end chemical manufacturing facility; evaluated three synthesis pathways via techno-economic modeling and process safety analyses.
- Executed material and energy resource planning; performed quantitative equipment sizing and capacity optimization for major plant systems.
- Formulated process flow designs and conducted a hazard and operability (HAZOP) study; identified 15 operational risk scenarios.
- Prepared comprehensive CAPEX/OPEX estimates and return on investment (ROI) analyses to support feasibility modeling and facility planning.

Impact of Climate Change on Water Quality | Seminar Nov 2024 – Jan 2025

- Analyzed climate change impacts on water systems; benchmarked quality parameters against national pollution control board regulations.
- Evaluated advanced purification technologies; conducted scalability and economic feasibility assessments for industrial-scale deployment.

LEADERSHIP & ACHIEVEMENTS

- Ranked in top 5% nationwide in industrial certifications spanning environmental management, refining, and Industrial IoT.
- Directed editorial strategy and design operations as Creative Head for Bombay Technologist, managing publication lifecycles for the official technical magazine.
- Won 2nd place in national business plan competition; developed market feasibility study and financial projection model for the proposed venture.
